

ABOUT US

An Integrated Method to Support Migrants

Co-funded by the Erasmus+ Programme of the European Union

Our goal is to create an educational pathway for long-term unemployed, low-skilled, migrant adults with the purpose to:

- Contribute to the digital citizenship (active participation in the society);
- Contribute to the digital inclusion (quality of opportunities in the use of the network and for the development of a fun-innovative culture) .

Welcome to the first Newsletter of the project Erasmus + (Strategic Partnerships) "An Integrated Method to Support Migrants "

This newsletter will be published every three months and is intended to inform you on the progress of the project.

info@aimsm.eu

The aim of the project:

- Tailor the provision of education for migrants & refugees by creating an educational plan to help them achieve digital competences ;
- Train the trainers to deliver tailored education to migrants & refugees to help them integrate.

Primary beneficiaries:

200 low-skilled unemployed adult migrants and/or refugees will benefit from the pathway as testers and, through their experience, they will contribute to the validation of the final tools within the European dimension.
